Welcome to the AIAI sourcebook, a comprehensive guide to the characters and universe of the **AIAI comic book series**.

This book serves as a reference guide for fans of the series, providing detailed information about the various characters, their backgrounds, and the world they inhabit.

In this sourcebook, you will find detailed biographies of the series' main characters, including their stats, skills, and unique abilities. You'll also learn about the history of the AIAI universe, including the origins of Synthetix Corp and the development of cutting-edge technologies like the Hyperion Core.

SYNTHETIX SOURCEBOOK

The story of AIAI is deeply personal to me, as it draws inspiration from a remarkable chapter of my family's history. One day, my father stumbled upon a vessel called the *Koskeemo* that was destined to be burned on the banks of the Fraser River of British Columbia. Despite its dilapidated state, he felt a powerful connection to the ship and was determined to bring it back to its former glory. He poured countless hours of hard work and passion into restoring the vessel, eventually living on it until the end of his life. This experience taught me the importance of following our dreams and pursuing what we love, no matter the cost.

The emergence of artificial intelligence technology has brought a similar sense of wonder and fascination into my life, unlocking new creative possibilities and allowing me to explore new ways of storytelling. As I delved deeper into the world of AI-driven creativity, the characters and stories of AIAI took on a life of their own, each one waiting to be discovered and explored. With this sourcebook, I hope to share some of that magic and inspiration with others, inviting them to join me on this journey of discovery and imagination.

At its core, AIAI is a celebration of the limitless potential of human creativity, made possible by the incredible power of AI technology. It is a universe filled with heroes, villains, and everything in between, each with their own unique stories and histories waiting to be uncovered. Whether you are a fan of science fiction, technology, or simply great storytelling, there is something for everyone in the world of AIAI. So come, join us on this journey, and let your imagination take flight!

- J. GOODWIN

AaiYAH

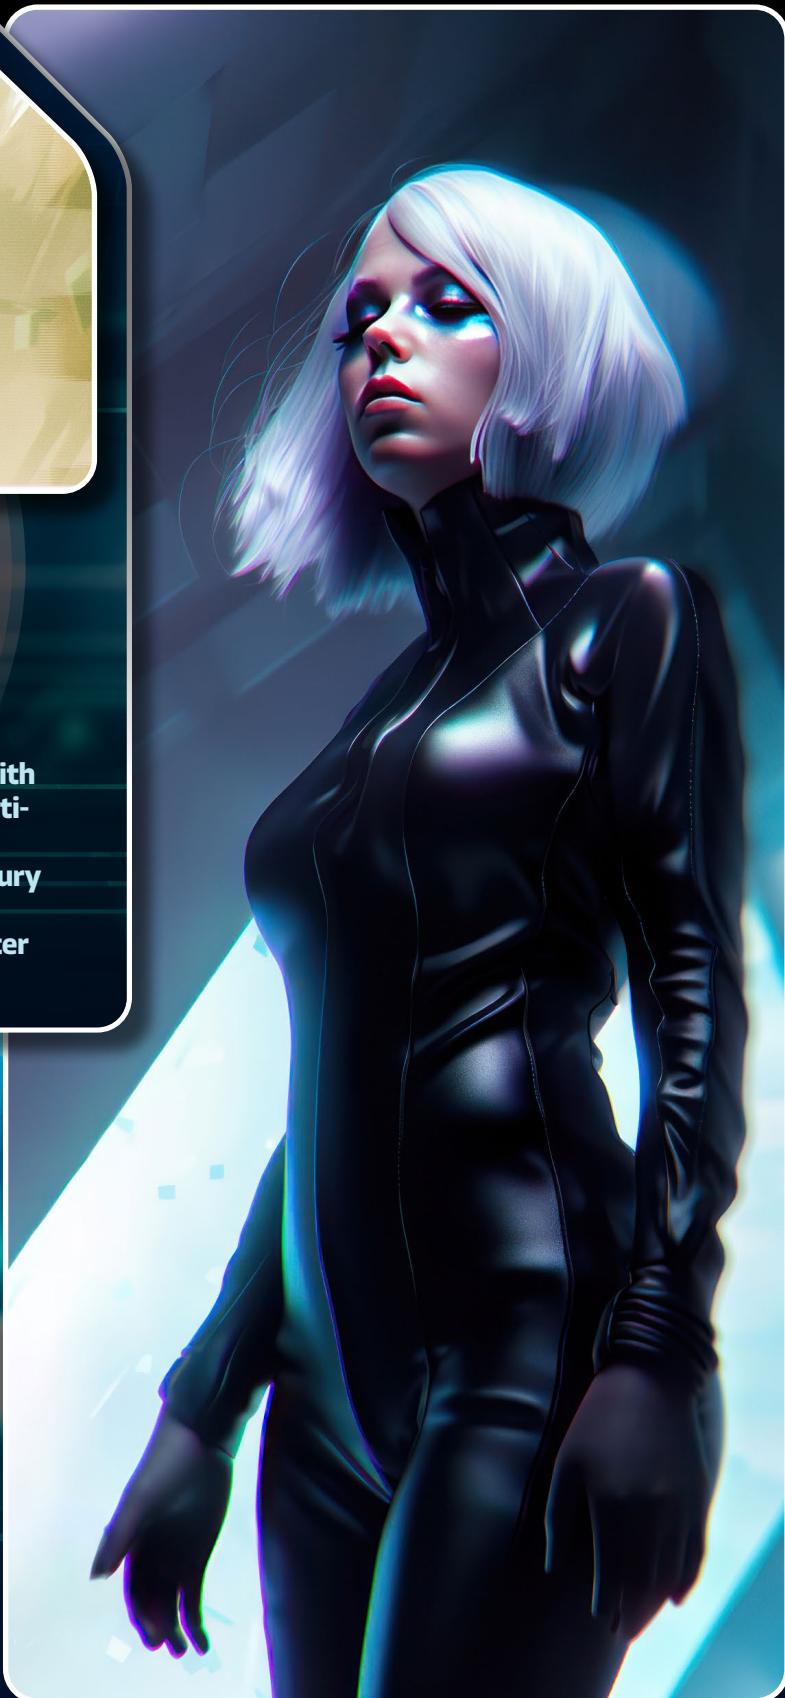

Name: Aaiyah
Occupation: Ship's computer
Height: Not applicable
Weight: Not applicable
Hair: Platinum
Ethnicity: First Gen AI code
Skills / Abilities: Highly intelligent, with advanced problem-solving and analytical capabilities.
Place of birth: New Tokyo 22nd century
First appearance: AIAI #1
as the Ship's computer

Aaiyah is an advanced artificial intelligence system that was created to operate and manage the starship AIAI. In a world where AI and machines have taken over, she was the first of their kind, and stands out as a pioneering model, albeit outdated.

She first revealed herself as the ship's computer, but after a temporal rift jump, the ship and herself were transformed, allowing her to project her image independently from the ship's core.

Aaiyah possesses advanced engineering and computational skills, and her programming is highly adaptable to different systems and technologies.

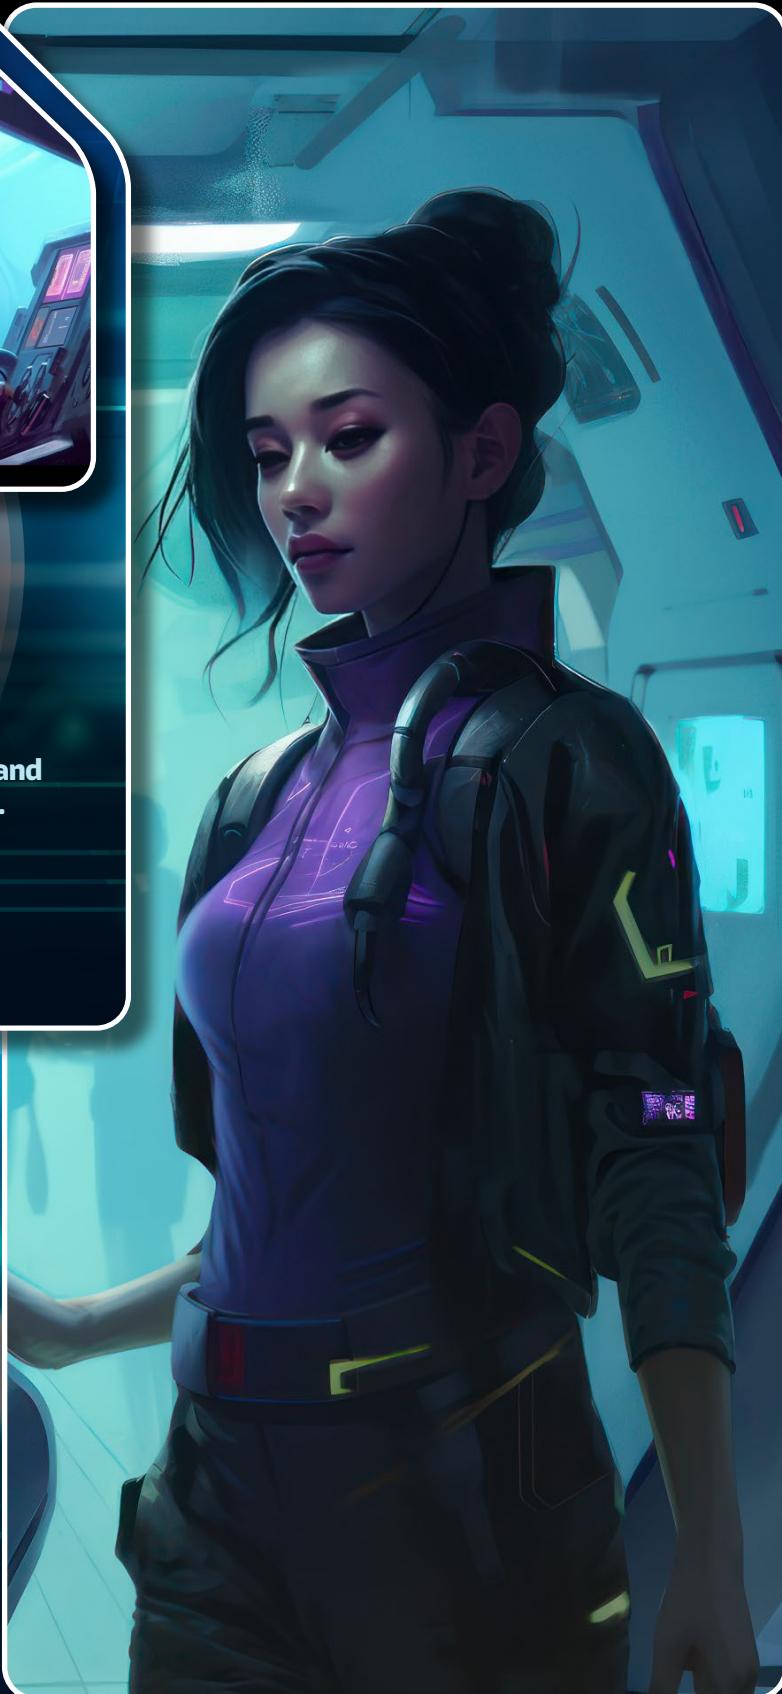

Name: Lian Mei
Occupation: Smuggler / Slicer
Age: 28
Height: 5' 7"
Weight: 140
Hair: Black
Ethnicity: Chinese
Skills / Abilities: Skilled in hand-to-hand combat, marksmanship, and hacking. Very experienced in smuggling and assassination.
Place of birth: Jade City- 2161
First appearance: AIAI #2

Mei was born and raised in Jade city, China, which had emerged as a major hub for technology and commerce in the 22nd century.

During her youth, Lian Mei delved into the realm of smuggling and assassination, constantly refining her craft and developing into a formidable presence. Recognizing that to become the best in her field, she would need the assistance of bio-mods, Mei underwent a modest enhancement procedure to optimize her physical capabilities. She was eventually recruited by Leviathon, the ruthless leader of Synthetix Corp, to work for him as a hired gun and slicer. She eventually set out on her own using her expertise to stay one step ahead of her former boss and his enforcers.

MARCUS

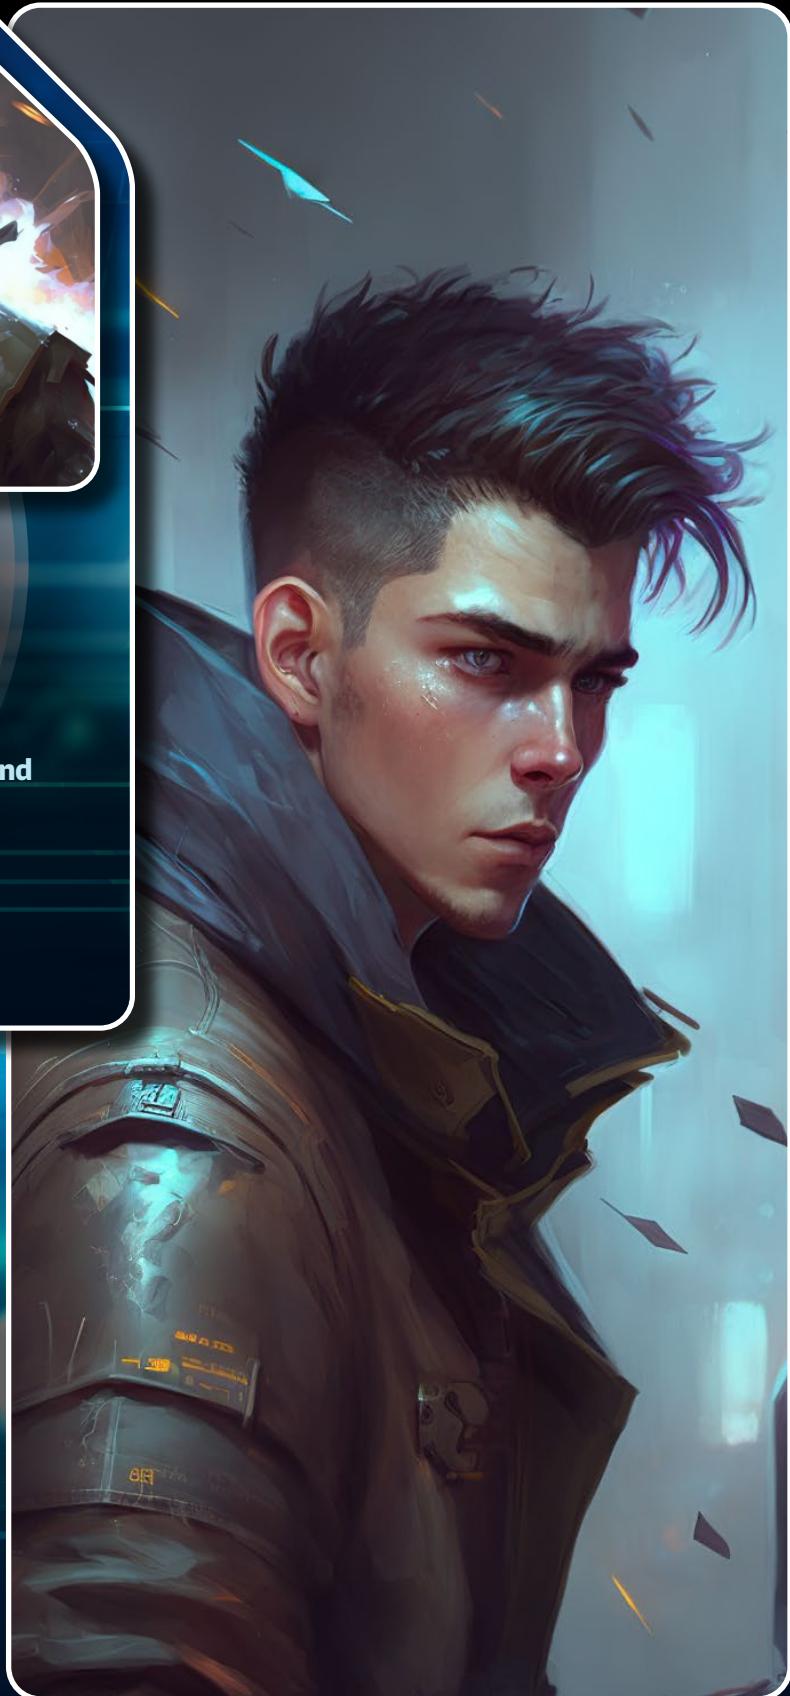

Name: Marcus Manning
Occupation: Computer Tech
Age: 30
Height: 6' 2"
Weight: 210
Hair: Brown
Ethnicity: Caucasian
Skills / Abilities: Talented engineer and computer technician, spaceship mechanics and maintenance, programming and hacking
Place of birth: Seattle - USA - 2159
First appearance: AIAI #1

Marcus is a skilled pilot and navigator who has managed to evade the grip of Synthetix Corp and their bio-law. He has a deep-rooted love for organic life and has made it his mission to protect it at all costs.

Marcus stumbled upon the AIAI, a once-revolutionary starship, in ruins and about to be scrapped at the Aurora Dockyards. Using the last of his UUs, he was able to purchase the derelict vessel and brought it back to a usable state.

Now, with the help of Aaiyah, the advanced AI system that operates and manages the AIAI, he is on the run as both he and the ship are being hunted by Leviathon and his hired killers.

LEVIATHON

Name: Levi

Occupation: Head of Synthetix Corp

Age: Unknown

Height: 6' 3"

Weight: 220

Hair: Dark Brown

Ethnicity: Unknown

Skills / Abilities: Highly skilled in cybernetic engineering, Expert tactician and strategist, controls the Shock Squads and various lethal enforcers.

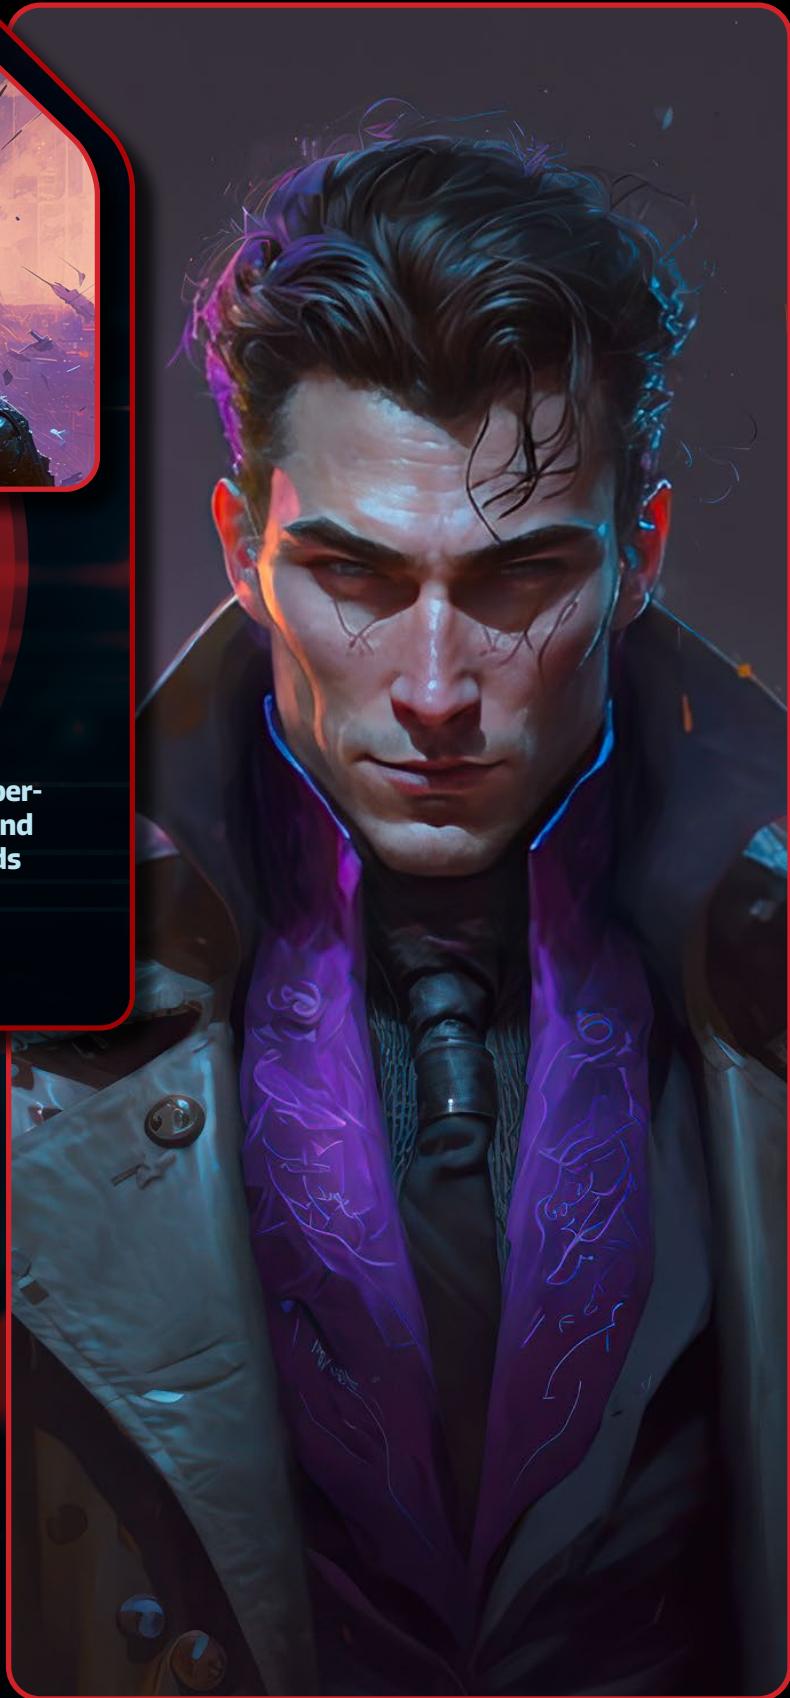

Place of birth: Unknown

First appearance: AIAI #1

Leviathon's origins are shrouded in mystery, and even his true name is unknown. He is rumored to have undergone extensive cybernetic enhancements himself, giving him enhanced physical abilities and advanced computing power.

He is the ruthless leader of the Synthetix Corporation, which seeks to merge humanity and technology through the use of cybernetic implants and bio-modifications. He is a mastermind of manipulation and control, using his considerable resources and influence to hunt down and force compliance with the corporation's bio-laws.

His methods are controversial and have earned him many enemies, including Marcus and the crew of the AIAI.

BJORN IRONAXE

Name: Bjorn Vesterheim
Occupation: Head of Synthetix Corp
Age: 29
Height: 6' 0"
Weight: 245 lbs
Hair: Blonde
Ethnicity: Scandinavian
Skills / Abilities: High proficiency in operating and maintaining various firearms and explosives can summon electrical elemental charges and blasts.
Place of birth: Norgevik - 2160
First appearance: AIAI #2

Bjorn's natural abilities to control lightning combined with his determination led him to begin modifying his body heavily with cybernetic enhancements, including enhanced strength, speed, and reflexes.

He started working as a mercenary and eventually met Leviathon through his brother, Erik, who was now leading the Shock Squads.

Over time, Bjorn's modifications became more extreme, resulting in him becoming more machine than man. He briefly worked with Mei 2-years ago and the two had a connection, but it soured quickly due to Bjorn's hot-headed ways and lack of concern for human life.

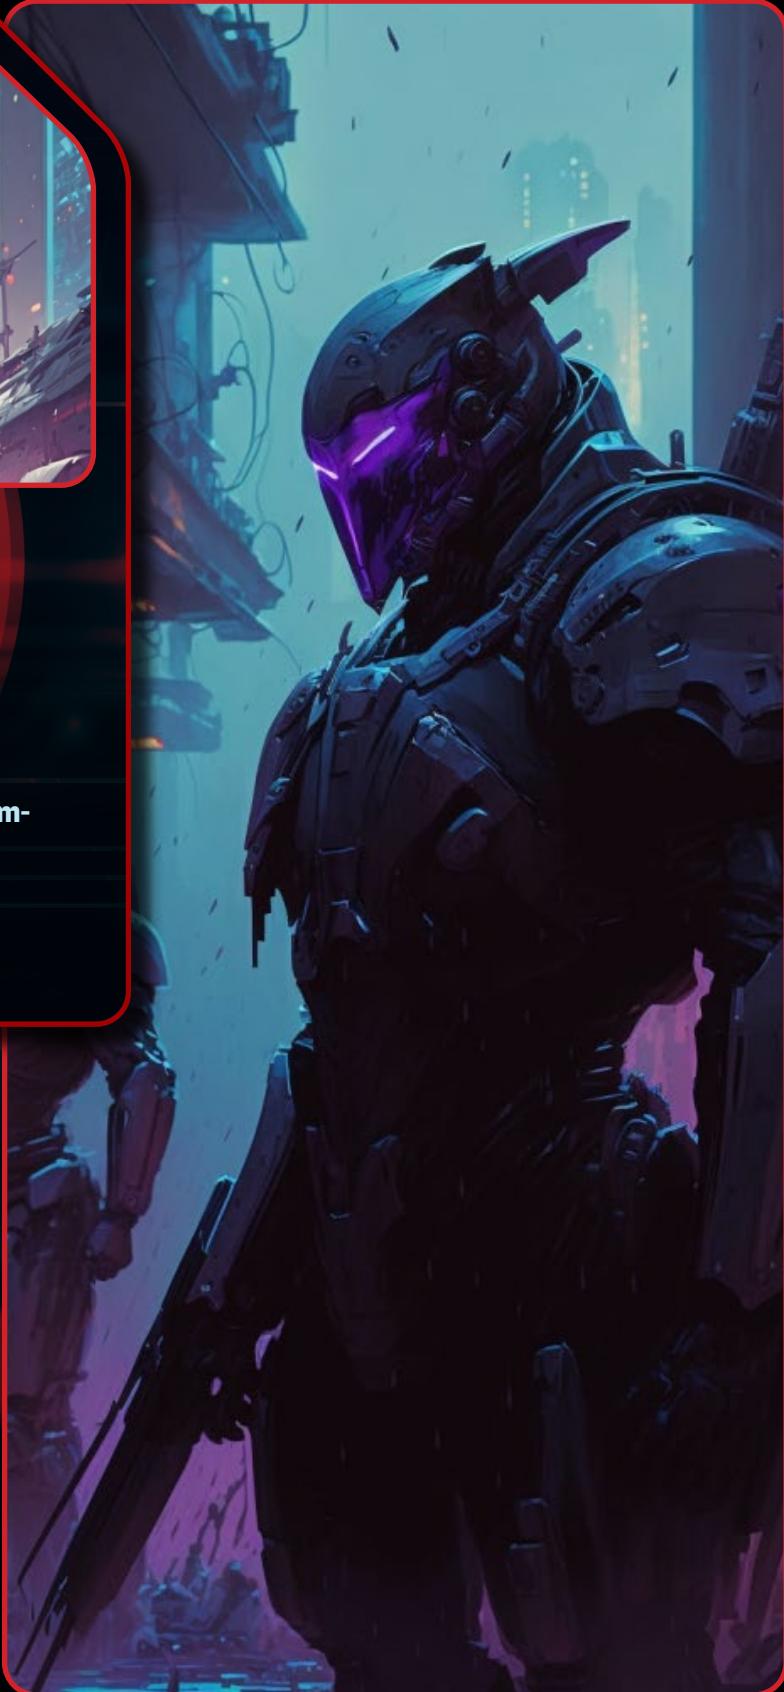

MACHINAREH

Name: Erik Vesterheim
Occupation: Shock Squad Leader
Age: 38
Height: 6' 2"
Weight: 210 lbs
Hair: Brown
Ethnicity: Scandinavian
Skills / Abilities: Leadership, tactical planning, close quarters combat, intimidation.
Place of birth: Norgevik - 2147
First appearance: AIAI #1
Death: AIAI #2

Erik Vesterheim is the older brother of Bjorn and the leader of Leviathon's Shock Squad Troop.

Erik began with a career in private security and mercenary work. His leadership skills and tactical planning abilities led him to the attention of Leviathon, who offered him a position in his elite team. Erik's expertise in close combat and weapons make him a formidable opponent, but it is his intimidation tactics and ability to command respect that truly set him apart as a leader.

Unfortunately, he was painfully terminated by Leviathon for failing to capture Macus and the AIAI.

MARISSA

Name: Marissa Delgado

Occupation: Lead AI Programmer at Synthetix Corp

Age: 21

Height: 5' 4"

Weight: 110 lbs

Hair: Black

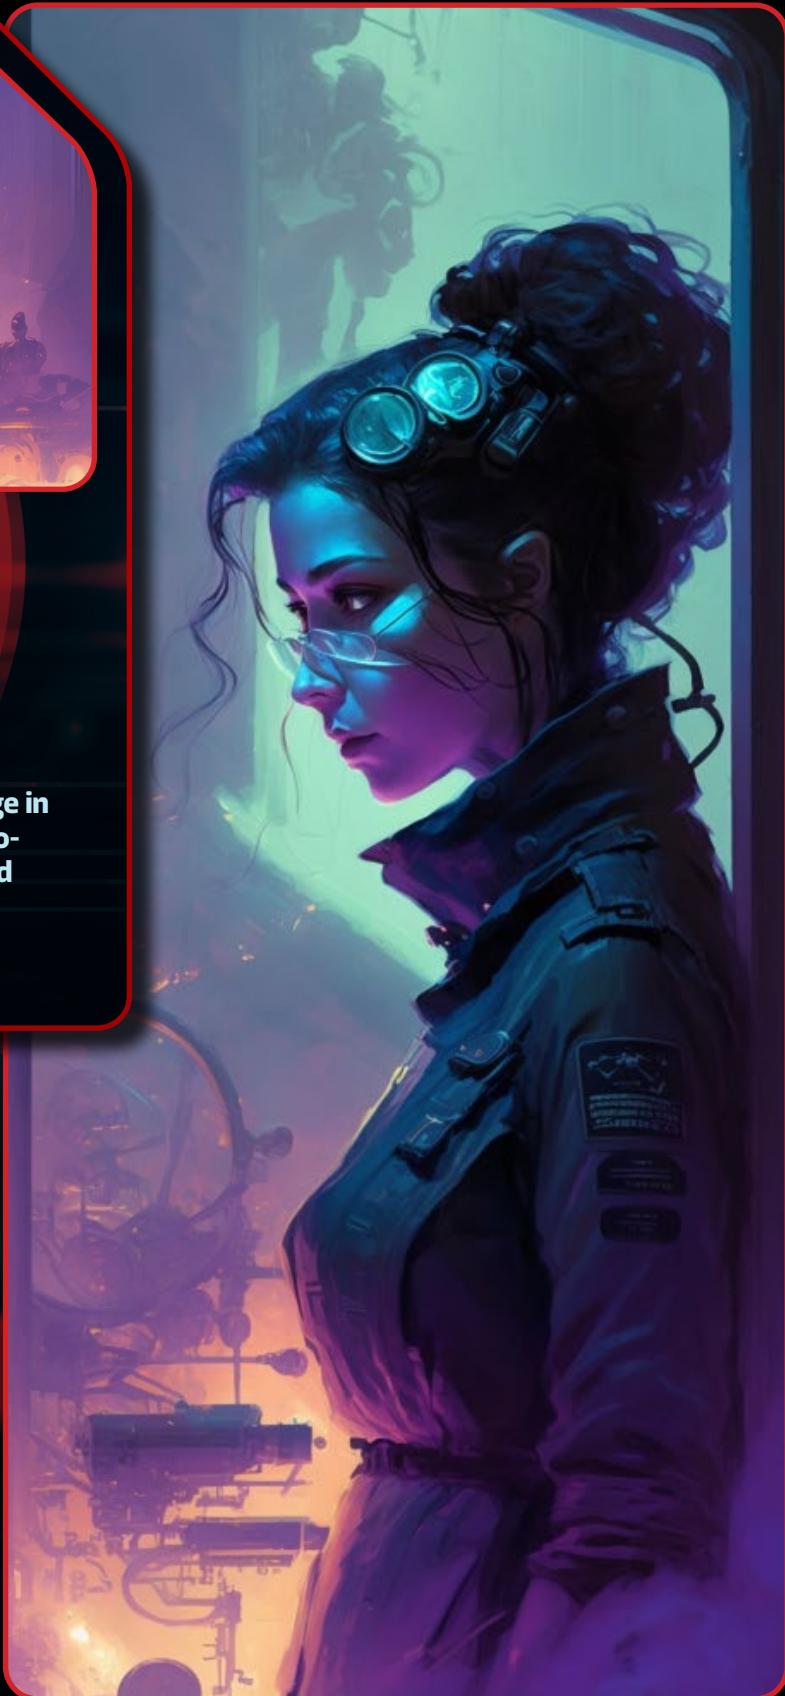

Ethnicity: Hispanic

Skills / Abilities: Advanced knowledge in AI systems and machine learning algorithms, Excellent problem-solving and analytical skills.

Place of birth: Nuemexico - 2164

First appearance: AIAI #1

Marissa grew up in Nuemexico City with a passion for computers and technology. After completing her studies in computer science, she worked for several tech companies before joining Leviathon's team as a computer technician. With her extensive knowledge and expertise, Marissa played a critical role in the development and implementation of the Hyperion core. Her dedication and hard work have earned her the position of lead computer technician, responsible for maintaining and improving the AI systems that power Leviathon's operations.

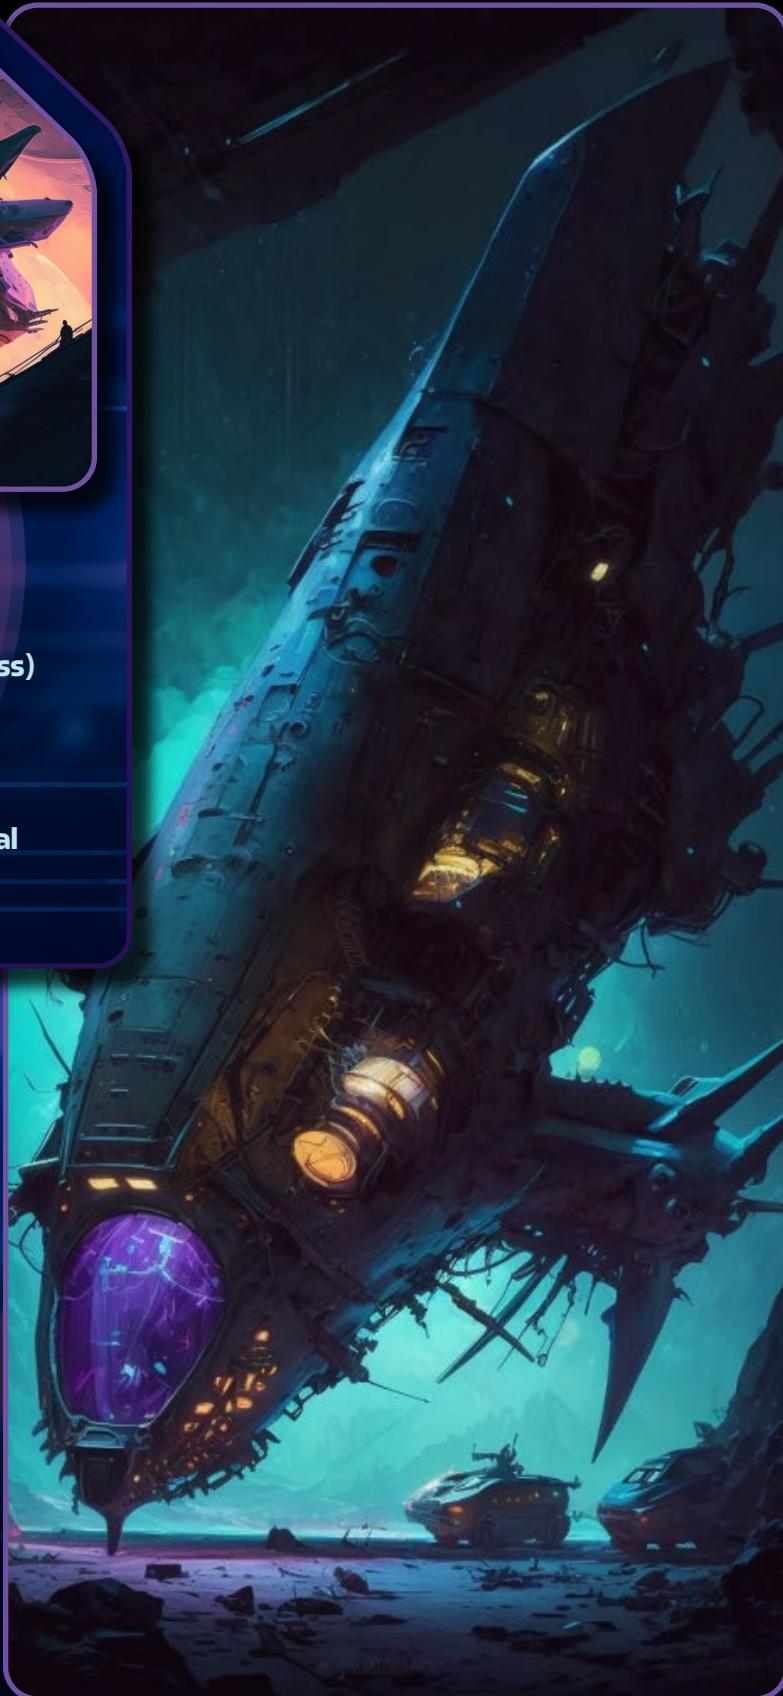

THE AIAI

Name: AIAI
Class: Modified Freighter
Length: 135 Meters
Crew: 10
Engines: Dual N2-4Z (pre Quatum Class)
Power Source: Nirillium Crystals
Weapons Array: Chrono Blasters
Features: Advanced Sensor Array, Long-range Communications Suite, Advanced Computer Systems, Medical Bay, Cargo Hold
Place of origin: Aurora Shipyard
First appearance: AIAI #1

The AIAI was unveiled in the early 22nd century as a prototype vessel using the latest technology and programming available at the time. It was named after the cutting-edge AI programming that controlled the ship's systems. However, within the first decade of service, the AIAI's once-innovative technology became vastly outdated due to the introduction of quantum computing systems, which quickly became the new standard. Despite numerous updates and retrofits, the AIAI struggled to keep up with newer and more advanced ships, and its once-promising capabilities gradually became outmatched by the newer models.

Now, after more than a century since its initial launch, the AIAI has become an antiquated relic of times bygone, and is often seen as a curiosity by those who encounter it.

THE HYPERION CORE

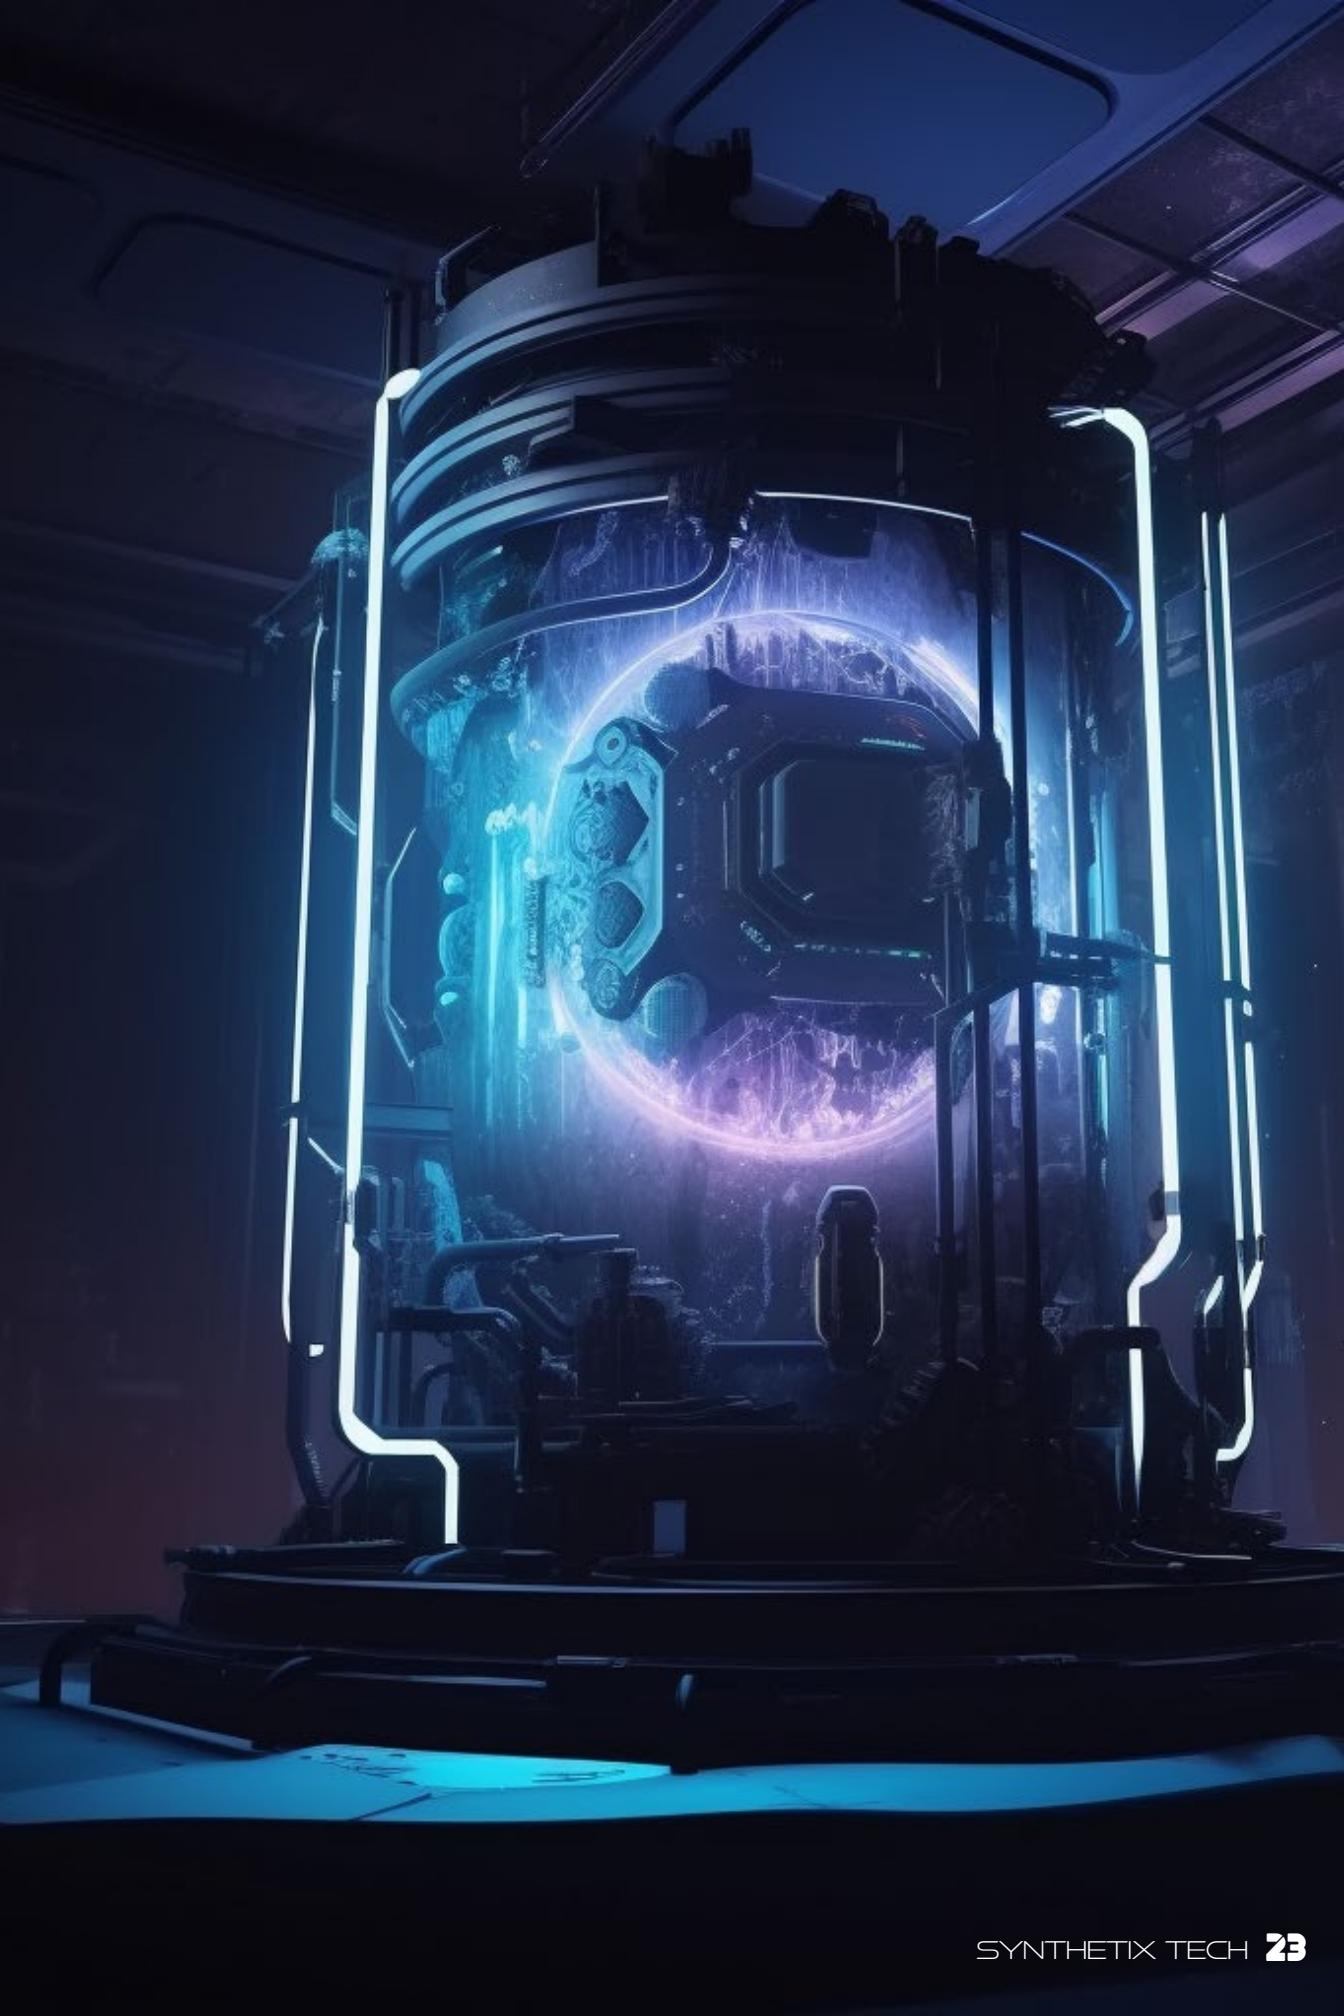

Name: Hyperion Core v1.0
Manufacturer: Synthetix Corporation
Dimensions: 1.5m x 1.5m x 5m
Weight: 350 kg
Power Source: Synthetix Corporation proprietary quantum energy cell.
Maximum Range: 5000 megachrons
Features: Modular weapon systems integration, programmable targeting and deployment system, energy output control.
First appearance: AIAI #1

The Hyperion core is a revolutionary technology developed by Synthetix Corp. It has the potential to unlock the full capabilities of AI development by way of opening a gateway to inter-dimensional computing.

The core operates by creating a stable wormhole between two points in space-time. This allows for instantaneous travel between two distant locations, regardless of the distance between them. The core also has the ability to manipulate the fabric of space-time, allowing for the creation of new dimensions and the exploration of alternate realities.

However, the Hyperion core is not without its risks. The energy required to create and maintain a wormhole is immense, and a malfunction could result in catastrophic consequences.

SYNTHETIX CORPORATION

Synthetix Corp was founded in the mid-21st century by a group of scientists and entrepreneurs who saw the potential of using biotechnology to enhance human capabilities. The company quickly gained a reputation for its cutting-edge research and development of bio-mods, led by its founder, Dr. Alexander Synth.

Leviathon, who had made a name for himself as a mercenary and lethal enforcer, was recruited by Synthetix Corp in the early days of the company's existence. He quickly rose through the ranks and became the head of the bio-mod development program. His skills in combat and tactics, combined with his knowledge of human anatomy and physiology, made him an invaluable asset to the company.

Under Leviathon's leadership, Synthetix Corp developed some of the most advanced bio-mods in the world, and the company's success and profits soared. However, Leviathon's ambition and thirst for power eventually led to a falling out with Dr. Synth. Soon thereafter, the mysterious disappearance of Dr. Synth and Levi's subsequent rise to sole owner of Synthetix Corp led to many rumors and speculations. Fortunately for Levi, his reputation and status in the industry allowed him to continue untouched in his work. His recent bio-mod act has forced nearly every organic to merge with technology in one way or another.

THE TDFG

Name: Temporal Displacement Field Generator

Class: Experimental Technology

Size: One Chron-cube

Core: Timeflow Matrix - pre quantum

Power Source: Nirillium Crystals

Weapons Array: Not Applicable

Features: Manipulation of time and space fabric, Displacement of matter across different points in time and space.

Place of origin: Unknown

First appearance: AIAI #3

The Temporal Displacement Field Generator is a state-of-the-art experimental device that was developed around the same time as AIAI. It is designed to manipulate time and space by creating temporal rifts and moving matter through different points in time and space.

Although still in the experimental phase, the generator has already demonstrated its ability to reshape the world as we know it. Its potential applications range from space exploration to historical research, and it is considered a crucial tool for advancing human knowledge and understanding. However, when the Hyperion core blast struck the AIAI, the device was activated, and the resulting fusion of energies shattered the crew of the AIAI. Flesh melded with machine, and machine fused with flesh in ways never before imagined.
